L'azienda nasce a Pesaro nel 1946, grazie all'entusiasmo e all'iniziativa di Umberto Cardinali, che apre un laboratorio artigiano in via Morselli, nel centro storico della città. È da poco iniziata la ricostruzione, subito dopo la fine della seconda guerra mondiale. La bicicletta, questo semplice e popolare mezzo di trasporto, costituisce un simbolo della voglia di ricominciare. Il marchio Adriatica rappresenta un messaggio di ottimismo: una vela spiegata su un cielo azzurro in cui volano i gabbiani. È un'immagine semplice che rispecchia i luoghi in cui l'azienda è sorta, una terra operosa il cui modello di sviluppo verrà in seguito universalmente riconosciuto. Nel 1970 Cardinali cede l'Azienda a Luigi Domenicucci, già nel settore come esperto meccanico ciclista, il quale prosegue l'attività con tenacia, professionalità e ottimo senso degli affari. Da dieci anni la produzione viene realizzata nel nuovo stabilimento di via Toscana, nella zona industriale pesarese.

Oggi Cicli Adriatica produce un'ampia gamma di biciclette per uomo, donna e bimbo, di tipo tradizionale e sportivo. L'impiego di leghe speciali ha aperto recentemente uno sbocco alla progettazione ed alla realizzazione di biciclette ultraleggere, veri gioielli di design e di perfezione meccanica, identificanti con il marchio Wing. Le biciclette Adriatica si distinguono per originalità, qualità e totale affidabilità. Infatti, le parti essenziali dei veicoli sono tutte progettate e costruite all'interno dell'Azienda con materie prime selezionate, affidate all'esperienza di una mano d'opera qualificata ed esperta. Il prodotto finito è sempre sottoposto ad un rigoroso controllo, per garantire la Clientela sotto ogni aspetto. Si effettuano studi ingegneristici e test scientifici, specialmente sui telai in alluminio, ed anche prove su strada da parte di corridori professionisti. Adriatica è presente sul mercato italiano ed estero con punti vendita esclusivi, ai quali è assicurata una costante assistenza tecnica e commerciale.

Tradizione qualità garantita, costante innovazione sono le caratteristiche e le specifiche prerogative alle quali Cicli Adriatica intende riferirsi nella sua produzione.

The company was founded in Pesaro in 1946, thanks to enthusiasm and initiative of Umberto Cardinali, who opened an artisan workshop in Via Morselli, in the city center. It recently began rebuilding immediately after the end of World War II. Cycling, this easy and popular means of transport, is a symbol of the desire to start again. Adriatica is a trademark message of optimism: a sail explained on a blue sky where the gulls fly. It is simply an image that reflects the places where the company has built, a land whose active development model will subsequently be universally recognized. In 1970, the Cardinali gave the company to Luigi Domenicucci, already in the field as an expert mechanic cyclist, who is continuing to work with perseverance, professionalism and good business sense. For over 20 years the production is done in the new plant of "Via Toscana", in the Pesaro industrial zone.

Cicli Adriatica today produces a wide range of bicycles for men, woman and child, and the traditional sports. The use of special alloys has recently opened an outlet in the design and implementation of ultra-light bike, the real jewels of design and mechanical perfection, under the brand name identifying Wing. Adriatica bikes are distinguished by originality, quality and total reliability. Indeed, the essential parts of the vehicles are all designed and built inside the company with selected raw materials, given the experience of a qualified workforce and experienced. The finished product is always subject to strict control in order to ensure the clients in every aspect. Are carried out engineering studies and scientific tests, especially on aluminum chassis, and road tests from professional riders. Adriatica is on the Italian market and abroad with exclusive outlets, which have ensured a constant technical assistance and trade.

Tradition quality, constant innovation are the characteristics and specific powers under which Cicli Adriatica is referring in its production.

## MOTORE MOTOR

Il motore SPORT Plus è stato creato per gli eBikers amanti dell'avventura che vogliono scoprire luoghi e angoli sperduti, per gli appassionati delle escursioni che non rinunciano al supporto elettrico. La trazione è la più potente della gamma e garantisce un sostegno importantelle basse frequenze grazie alla coppia massima di 85 Nm. La spinta a supporto può raggiungere il 400% della forza impiegata, restituendo una versatilità eccezionale per chi non vuole porsi limiti. L'assistenza stupisce fin dalla prima pedalata e si adatta in maniera perfetta su qualsiasi percorso, trail o fuoristrada. La guida risulta sportiva e reattiva, il ciclista è libero di concentrarsi sul percorso perché il motore OLI eBike Systems lo segue e lo supporta in maniera dinamica, immediata e naturale. The Bafang M400 engine is distinguished by its power and reliability, making it one of the most popular systems on the market, counting on the multi-year experience of the E-bike manufacturer. The Bafang M400 motor have 250W power with a maximum torque of 80Nm in an extremely silent way, it is able to continuously transmit data to the control unit at a frequency of 80k Hz via a torque sensor and two speed sensors allowing you to reach the maximum efficiency possible with a fluid and precise guide. Its clean design makes the disassembly operation simple and fast even thanks to its weight less than 3.8 kg

## DISPLAY TFT 2" AD ALTA DEFINIZIONE 2" HIGH-DEFINITION TFT DISPLAY

Confezionato in un design sottile ed elegante si integra perfettamente con qualsiasi manubrio, potendo accedere a qualsiasi informazione a prima vista. Oltre alle comuni funzionalità, l'High Vision dispone di: Packed in a slim and elegant design it seamlessly integrates with any handlebar and you can access any info at first sight. On top of those common functionalities, the HIGH Vision features:

- Motor power output
- Rider power
- Automatic light switch
- Dark mode
- Gorilla-Glass® anti reflective screen
- IP68 certified

## BATTERIE BATTERY

### FOR MTB

Batteria al litio 36V-20Ah con celle SAMSUNG > capacità 720Wh  
36V-20Ah lithium battery with SAMSUNG cells > capacity of 720Wh.

## AUTONOMIA AUTONOMY RANGE

AUTONOMIA BATTERIA > 720 Wh > fino a 150 Km. Si intende su strada piana, sulla base di un peso complessivo ciclista/bicicletta di 90 kg. a 23 km/h  
BATTERY AUTONOMY > 360 Wh > up to 150 Km. It is intended on a flat road, based on a total rider/bicycle weight of 90 kg. at 23 km/h.

## MOTORE MOTOR

Il motore EDGE è potente, leggera e fluido. OLI è nuovo baby eroga 90Nm con impareggiabile fluidità grazie alla sua elettronica vettoriale e sensori di coppia ultraprecisi, capaci di esprimere una tale potenza che si è dovuto reinventare tutta l'elettronica per gestirla correttamente! 90 Nm accuratamente distribuiti per offrire una pedalata naturale in ogni circostanza. Abbinamento perfetto per eMTB senza limiti e la mobilità urbana pesante. Tutto racchiuso in un design compatto a soli 3Kg.

The EDGE engine is powerful, light and smooth. OLI is the new kid delivering 90Nm with incomparable fluidity thanks to its vector electronics and ultra-precise torque sensors, capable of expressing such power that all the electronics had to be reinvented to manage it correctly! 90 Nm carefully distributed to offer a natural ride in all circumstances. Perfect match for limitless eMTB and heavy urban mobility. All enclosed in a compact design at only 3Kg.

## DISPLAY TFT 2" AD ALTA DEFINIZIONE 2" HIGH-DEFINITION TFT DISPLAY

Confezionato in un design sottile ed elegante si integra perfettamente con qualsiasi manubrio, potendo accedere a qualsiasi informazione a prima vista. Oltre alle comuni funzionalità, l'High Vision dispone di: Packed in a slim and elegant design it seamlessly integrates with any handlebar and you can access any info at first sight. ## BATTERIE BATTERY

### FOR GRAVEL

Batteria al litio 36V-10Ah con celle LG > capacità 360Wh  
36V-10Ah lithium battery with LG cells > capacity of 360Wh.

## AUTONOMIA AUTONOMY RANGE

AUTONOMIA BATTERIA > 360 Wh > fino a 90 Km. Si intende su strada piana, sulla base di un peso complessivo ciclista/bicicletta di 90 kg. a 23 km/h  
BATTERY AUTONOMY > 360 Wh > up to 90 Km. It is intended on a flat road, based on a total rider/bicycle weight of 90 kg. at 23 km/h.

## MOTORE MOTOR

Il motore Ananda M81 garantisce le stesse caratteristiche tecniche del già esistente M80, con un considerevole aumento delle performance, in grado di raggiungere una coppia massima di 100 Nm.

The Ananda M81 engine guarantees the same technical characteristics of the already existing M80, with a significant increase in performance, capable of reaching a maximum torque of 100 Nm.

## DISPLAY CICLOCOMPUTER COMPUTER DISPLAY

L'ampio display in vetro, situato al centro del manubrio, rende immediata la lettura di tutte le informazioni disponibili a sistema quali la velocità (tempo reale, media e massima percorsa), livello indicativo carica della batteria, retroilluminazione, indicatore dei livelli di assistenza, etc. Tramite la pulsantiera collegata sul manubrio si controllano accensione/spengimento del sistema, retroilluminazione e scelta dei 4 livelli di assistenza disponibili.

The large glass display, located in the center of the handlebar, makes it immediate to read all the information available to the system such as speed (real time, average and maximum traveled), battery indicative level, backlighting, levels assistance indicator etc. Through the keypad connected to the handlebar, you can control system switch on/off, backlighting and choice of 4 levels of assistance available.

## BATTERIA BATTERY

### FOR TREKKING BIKE

Batteria al litio 36V-14,5Ah > capacità 522Wh.  
36V-14,5Ah lithium battery > 522Wh capacity.

## AUTONOMIA AUTONOMY RANGE

AUTONOMIA BATTERIA > 522 Wh > fino a 140 Km. Si intende su strada piana, sulla base di un peso complessivo ciclista/bicicletta di 90 kg. a 23 km/h  
BATTERY AUTONOMY > 522 Wh > up to 140 Km. It is intended on a flat road, based on a total rider/bicycle weight of 90 kg. at 23 km/h.

## MOTORE MOTOR

Il motore Ananda M80 esprime una delle soluzioni tra le più compatte e leggere sul mercato odierno. Sviluppato per l'utilizzo trekking-urban con la sua coppia massima di 80 Nm garantisce un supporto alla pedalata fluida e costante. Il risultato di questo binomio genera una piacevole sensazione durante la pedalata.

The drive unit Ananda M80 is one of the most compact and light in the current market. Developed for trekking-urban use, with its maximum torque of 80 Nm ensures smoothy and regular support to the pedaling. The result of this combination generates a pleasant sensation during pedaling.

## DISPLAY CICLOCOMPUTER COMPUTER DISPLAY

L'interfaccia semplice e intuitiva del display permette una facile lettura di tutte le informazioni disponibili quali la velocità (tempo reale, media e massima percorsa), livello indicativo carica della batteria, retroilluminazione, indicatore dei livelli di assistenza etc. Tramite la pulsantiera collegata sul manubrio si controllano accensione/spengimento del sistema, retroilluminazione e scelta dei 4 livelli di assistenza disponibili.

The simple and intuitive interface of the display allows easy reading of all available information such as speed (real time, average and maximum distance), battery indicative level, backlighting, levels assistance indicator etc. Through the keypad connected to the handlebar, you can control system switch on/off, backlighting and choice of 4 levels of assistance available.

## BATTERIA BATTERY

### FOR CITY BIKE

Batteria al litio 36V-13Ah > capacità 468Wh.  
36V-13Ah Lithium battery > 468Wh capacity.

## AUTONOMIA AUTONOMY RANGE

AUTONOMIA BATTERIA > 468 Wh > fino a 120 Km. Si intende su strada piana, sulla base di un peso complessivo ciclista/bicicletta di 90 kg. a 23 km/h  
BATTERY AUTONOMY > 468 Wh > up to 120 Km. It is intended on a flat road, based on a total rider/bicycle weight of 90 kg. at 23 km/h.

## MOTORE MOTOR

Il motore Ananda M107 esprime una delle soluzioni tra le più compatte e leggere sul mercato odierno. Sviluppato per l'utilizzo trekking-urban con la sua coppia massima di 40 Nm garantisce un supporto alla pedalata fluida e costante. Il risultato di questo binomio genera una piacevole sensazione durante la pedalata.

The drive unit Ananda M107 is one of the most compact and light in the current market. Developed for trekking-urban use, with its maximum torque of 40 Nm ensures smoothy and regular support to the pedaling. The result of this combination generates a pleasant sensation during pedaling.

## DISPLAY CICLOCOMPUTER COMPUTER DISPLAY

L'interfaccia semplice e intuitiva del display permette una facile lettura di tutte le informazioni disponibili quali la velocità (tempo reale, media e massima percorsa), livello indicativo carica della batteria, retroilluminazione, indicatore dei livelli di assistenza etc. Tramite la pulsantiera collegata sul manubrio si controllano accensione/spengimento del sistema, retroilluminazione e scelta dei 3 livelli di assistenza disponibili.

## BATTERIA BATTERY

### FOR CITY BIKE

Batteria al litio 36V-10Ah con celle LG > capacità 360Wh  
36V-10Ah lithium battery with LG cells > capacity of 360Wh.

## AUTONOMIA AUTONOMY RANGE

AUTONOMIA BATTERIA > 360 Wh > fino a 70 Km. Si intende su strada piana, sulla base di un peso complessivo ciclista/bicicletta di 90 kg. a 23 km/h  
BATTERY AUTONOMY > 360 Wh > up to 70 Km. It is intended on a flat road, based on a total rider/bicycle weight of 90 kg. at 23 km/h.

## E-SERIES

### MOTORE 36V 36V MOTOR

La gamma e-bike E1 / E2 si contraddistingue per l'ottimo rapporto qualità-prezzo, equipaggiate con motore a mozzo con tecnologia speed-sensor. Motori Brushless 36V-250W con potenza max fino a 30Nm.

The e-bikes E1 / E2 range is characterized by excellent value for money and are equipped by hub motor with speed sensor technology. Brushless motors 36V-250W with max torque power up to 30 Nm.

### DISPLAY COMPUTER DISPLAY

Display a led con 3 livelli assistenza e indicatore batteria con funzione walk assist 6 Km/h.

Led display 3 different levels assistance and battery indicator with walk assist 6 Km/h function.

### BATTERIE BATTERY

#### FOR CITY BIKE

Batteria portapacco  
Carrier battery

Batteria al litio 36V-10Ah > capacità di 360Wh.  
36V-10Ah Lithium battery > 360Wh capacity.

Batteria al litio 36V-13Ah > capacità di 468Wh.  
36V-13Ah Lithium battery > 468Wh capacity.

### AUTONOMIA AUTONOMY RANGE

**AUTONOMIA BATTERIA > 360 Wh > fino a 50 Km.**  
Si intende su strada piana, sulla base di un peso complessivo ciclista/bicicletta di 90 kg. a 23 km/h  
BATTERY AUTONOMY > 360 Wh > up to 50 Km.  
It is intended on a flat road, based on a total rider/bicycle weight of 90 kg. at 23 km/h.

**AUTONOMIA BATTERIA > 468 Wh > fino a 70 Km.**  
Si intende su strada piana, sulla base di un peso complessivo ciclista/bicicletta di 90 kg. a 23 km/h  
BATTERY AUTONOMY > 468 Wh > up to 70 Km.  
It is intended on a flat road, based on a total rider/bicycle weight of 90 kg. at 23 km/h.

### MOTORE 48V 48V MOTOR

La gamma fat e-bike si contraddistingue per l'ottimo rapporto qualità-prezzo, equipaggiate con motore a mozzo con tecnologia speed-sensor. Motori Brushless 48V-250W con potenza max fino a 40Nm.

The fat e-bikes range is characterized by excellent value for money and are equipped by hub motor with speed sensor technology. Brushless motors 48V-250W with max torque power up to 40 Nm.

### DISPLAY COMPUTER DISPLAY

Display LCD con 5 livelli assistenza e indicatore batteria con funzione walk assist 6 Km/h.

LCD display 5 different levels assistance and battery indicator with walk assist 6 Km/h function.

### BATTERIE BATTERY

#### FOR FOLDING BIKE

Batteria integrata  
Integrated battery

Batteria al litio 48V-14Ah > capacità di 672Wh.  
48V-14Ah Lithium battery > 672Wh capacity.

### AUTONOMIA AUTONOMY RANGE

**AUTONOMIA BATTERIA > 672 Wh > fino a 80 Km.**  
Si intende su strada piana, sulla base di un peso complessivo ciclista/bicicletta di 90 kg. a 23 km/h  
BATTERY AUTONOMY > 672 Wh > up to 80 Km.  
It is intended on a flat road, based on a total rider/bicycle weight of 90 kg. at 23 km/h.
